

**GIVE
NUTRITION
MOTHERS & BABIES**
Ndondol, Senegal

RNDM Sisters work in different villages in Ndondol, to fight against malnutrition. This project supports mothers and babies to improve their health. Selected women's groups prepare nutritious food with local cereals and enriched flour. Mothers bring their children with severe malnutrition to the centre where they are given the prepared food, milk and vitamins necessary to boost their health until the children get back to their normal weight. Some women will be trained to check the record of the babies' monthly weight, to see their improvement. The project will also include the purchase of basic furniture and weighing machines for the smooth running of the center.

€ 50

Your gift will contribute to fight malnutrition and improve the health of many children

GIVE EDUCATION
TRIBAL CHILDREN,
Odisha, India Central

The RNDM mission in Odisha serves the marginalized and tribal children and women of Kuchinda district. The Sisters engage themselves in the ministries of education and social development. They run nine Supplementary Education Centers in Kuchinda, for over 200 children from remote villages who attend these classes. Our main focus is to impart basic quality education to the children who are deprived of good educational opportunities. Through these centers, they gain literacy and are empowered to join formal school. Women are also given capacity building training and attend awareness programs to become leaders and claim the rights of their children from the government schemes.

€ 20

Your gift will bring education and hope to the lives of marginalized children and women.

GIVE HOPE
PHYSICALLY CHALLENGED
Almel, India South

RNDM Sisters in Almel have been working for physically challenged children and supporting their families. This project will provide them with basic needs, medicines and nutritious food that helps them to live a healthy and dignified life. The support will reduce the burden on the poor parents, who are daily wage labourers, struggling to survive. Due to the parents' low economic conditions, many families consider that the children with disabilities are burdensome and therefore, are often neglected. Many such children suffer from malnutrition and succumb to other illnesses leading to early deaths.

€ 30

Your gift will provide them with basic needs and enable them to live a respectful and longer life.

GIVE LIFE
DRINKING WATER
Kulaman, Philippines

The Menubo Dulangan is an indigenous tribal community in Kulaman, living at a subsistence level depending on good weather conditions for their farm-based livelihood. Most of these families have been displaced to the interior parts of the land and they live with less access to education, health and other facilities. There is no electricity and ground water in most villages, they depend on rain water for sanitation and hygiene. The project supports the Sisters' initiative to install home rainwater harvesting tanks for these families in remote villages.

€ 50

Your gift will ensure a reliable, sustainable water source for these communities.
